

## MILK TO RADIUM AS AIDS TO HEALTH ARE SHOWN HERE

Public Exhibit Includes Spoonful of Precious Mineral Worth \$260,000.

"Health Week" was inaugurated in New York to-day with the opening of the sessions of the American Public Health Association at the Astor and a health exposition at the Grand Central Palace in which aids to individual and public health are on exhibition.

The exposition, which is being conducted as an adjunct to the sessions of the association's semi-centennial celebration, is expected to appeal to every person and the exhibits range from milk to radium.

Three policemen guarded the radium at the Grand Central Palace last night. It is valued, though there is less than a teaspoonful of it, at \$260,000. Hamilton Foley of the Radium Chemical Company, allowed some people to see it and even presented them with a millionth part of a grain inclosed in a minute glass cell.

The members of the Association, who came from every part of the country, will be in session four days, during which time they will discuss subjects pertaining to public health. The exposition, however, will be open all week.

The fine show at the Grand Central Palace is staged by the Department of Health of the city and the American Public Health Association. Commissioner Copeland is the Chairman of the Exposition Committee. Dr. Charles E. North is Director and A. W. Hedrick, Secretary.

The committee has arranged so that every penny paid for tickets will be divided by a most responsible committee appointed by various religious denominations, between the American Public Health Association and the Department of Health of the City of New York, to be used to establish clinics for undernourished children and similar health endeavors.

As a preliminary to this Health Week, several experts on hygiene and dietetics delivered health sermons in the churches hereabouts yesterday.

A "Children's Highway to Health" has been built by the social service and charity organizations. Health clowns will interest the children. The Child Health organization has arranged a "Harbor of Child Health," the index to child health, "Judge Scales" being the linchpin. The committee on Devastated France will have a "Children's Highway and Pageant."

The New York World will feature its "Sunday World School Prize Club," having on exhibition the cups, medals and banners won by public school children, schools and classes. In its extensive work, carried on for years, in encouraging athletics and health among school children.

In the World booth will be shown many banners, prizes, etc., won in years gone by, and these and the work will be explained. Each day a different boy will demonstrate the various health features they are taught, exercises, putting shot, jumping, etc.

## GOLDEN WEDDING FOR OLDEST EX-FIREMAN

Winsted Veteran and His Wife to Hold Celebration.

(Special to The Evening World.) WINSTED, Conn., Nov. 14.—Mr. and Mrs. S. E. Granger of Center Street will observe their golden wedding tomorrow. Mr. Granger formerly was employed by the old Naugatuck Railroad and is the oldest living ex-member of the Winsted Fire Department. He is still active as a mechanic.

The largest game dinner ever spread in Winsted was that of the Kehow Tribe of Red Men. Seven hundred pounds of game, all bagged by Red Men, were consumed. A thirteen-year-old dog owned by Frank Phillips, roared two roars last night, making thirty-two he has caught this fall.

## HUNT BOOZE BRIBERS ON POLICE FORCE

New Britain's Chief Has a Member of Department Under Suspicion.

(Special to The Evening World.) NEW BRITAIN, Conn., Nov. 14.—With Chief of Detectives A. J. Richardson awaiting sentence for concealing stolen automobiles and accused of bribing former Prohibition Enforcement Agent Thomas F. McAuliffe as well as taking bribes himself from rum runners, Chief of Police W. J. Hawling has begun an investigation of his department to ferret out other bribe takers.

Three prominent members of the department are under suspicion. One charge that may be brought involves a bribe of \$200.

## PLANNING TO TRY ENFORCEMENT AGENT

State's Attorney Confers on Proceedings Against Arrested Official.

(Special to The Evening World.) HARTFORD, Conn., Nov. 14.—State's Attorney H. M. Alcorn, who had been ill for several days, held an important conference in his office here yesterday to discuss plans for the trial of suspended Chief Federal Prohibition Enforcement Officer Thomas F. McAuliffe, who was arrested last month on State and Federal warrants charging acceptance of bribes. The arrest was in connection with a score of others involved in three rum runner murders in New Britain.

Federal Judge E. S. Thomas recently ordered that McAuliffe be tried in the Federal court with the State Prosecutor pressing the charges instead of the United States Attorney.

How Gude's Pepto-Mangan Relieves Ill Humor of Bad Health

When ill humor becomes chronic and a man or a woman who should be genial becomes known as a "grouch," nine times out of ten the cause is physical. When blood gets weak and full of poison it leaves the body weak, the face pale, and causes a tired feeling. There is no endurance. Nerves get all tattered, because in a weak blood condition the body is not nourished sufficiently with the oxygen that rich red blood supplies. Gude's Pepto-Mangan is a blood-builder and when taken in steady doses for a while it causes a flood of fresh red blood cells to stream through the body, bringing robust health and strength. With good blood, rich and red, there are no "grouches." Life looks good and pleasures are keenly enjoyed. Druggists have Gude's Pepto-Mangan in liquid and tablet form. Be sure to get the genuine with the name "Gude's Pepto-Mangan" on the package.—Advt.
